

NTACT Operations

# WELDING & FABRICATION

Serving the Oil & Gas and Renewable Energy Industries

## CUTTING EDGE EQUIPMENT

- Automated pipe profiler
- Robotic welding
- Plasma-arc cutting table
- 60 tons of overhead cranes
- In-house Safety, Quality Assurance, and Design personnel
- 35+ acres of painting and assembly

## CONFIDENCE WITH ASME CODE

NTACT employs welders that are certified per ASME Section IX, API, and AWS standards; using **SMAW**, **GTAW**, **FCAW**, **GMAW**, and SAW welding processes.

The NTACT fabrication facility is an authorized ASME Code shop qualified to design and fabricate **B31.3**, **B31.4**, **B31.8** Code Piping, and ASME Section VIII Division I vessels "U" stamp; and NBIC"R" stamp vessels. All NTACT Vessels are registered with the national board, NB stamp.
